Implementing the *Progoff*TM Methodology Through the *Intensive Journal*[®] Method

The *Intensive Journal*[®] method, based upon Dr. Progoff's unique approaches for self-development, has a solid foundation in theory and approach. Here are some of the method's major features.

Intensive Journal Workbook: Mirroring the Growth Process

The structure of sections and corresponding writing exercises in the *Intensive Journal*[®] workbook mirror the subjective process of perceptions and thoughts taking place inside yourself. Designed with minimal terminology, these procedures provide the means for moving directly into your inner process and drawing forth emotions and experiences to make them accessible and tangible for further development.

Inner Development: Evoking Your Potential

Focusing on inner development, where the most penetrating insights are generated, the *Intensive Journal*[®] method provides you with an integrated system for dealing with issues through a direct experience in your life. Certified leaders guide you step-by-step through the method in a contemplative atmosphere.

Non-judgmental and non-analytical approaches further the psyche-evoking process. You become immersed in your own growth, drawing forth your unique potential and unfolding life process.

Dr. Progoff's Philosophy

*"The method provides an indirect approach to solving our life problems ...we step back and move inward and meet them at a deeper level."*¹

*"People become sensitive to the elusive threads of their inner lives when they have a definite way of working with them."*²

A Framework for Stimulating Your Creativity

The *Intensive Journal* method provides you with a safe and effective framework from which to explore and develop your life.

Overcome Writer's Block

The *Intensive Journal* Process helps you access a stream of material generated from your life experiences. This flow brings certain symbols and images into consciousness, as well as life experiences and ideas that may have been forgotten or repressed. Because there is an inherent movement in the Process, fresh material and ideas are revealed.

Spur Your Creativity

If you feel stuck or unsure of what to do next in your writing, the *Intensive Journal* Program allows you to enter the steady stream of repressed personal material. Discover ideas you never knew you had. Gain insights about the direction you would like your writing to take.

Develop Meaningful Personal Imagery

The *Intensive Journal* Process provides a unique way of working with dreams and imagery to uncover meaningful personal symbols. This personal imagery can be transformed into powerful metaphors in your writing, bringing depth and intimacy to your work. By accessing your personal images, you can open up new doors in your personal life and professional life. Images can evolve and grow over time, to become sources for larger, more integrative works.

"I have understood later...that all my pictures are dreams. Not in the meaning that I have dreamt them now, but in a way I have-- I have written them, and I have seen them before I have written them. Everything I have seen or heard inside...or felt...And I have combined reality so exactly as the dreams combine. And every picture-- every one of my pictures are dreams. And when-- and if the audience secretly perhaps have seen inside, suddenly meet in their minds, meet my dreams. And feel that they are close to their dreams. I think that is the best communication. "

--**Ingmar Bergman**, in an interview with WNDT-TV New York as quoted in *The Dynamics of Hope* by Dr. Ira Progoff.

Connect with Your Life Experiences

Draw on your life experiences to bring a sense of closeness and understanding to your work. The *Intensive Journal* method is an invaluable tool for those who write memoirs or life stories. Our process puts you in direct contact with your unfolding life process. Gaining greater understanding of life experiences can enhance both your writing and self-understanding.

Statements From Writers

"...One cannot help being amazed by what emerges from this skilled inner journey. All the elements we attribute to the poet, the artist, become available to everyone..."

Anais Nin
Diarist

"....a truly powerful method for accessing the past and charting the future of your life."

Hannelore Hahn

Journal Feedback™ Technique: A Dynamic Process

Through the *Journal Feedback™* process, you avoid self-conscious analysis and preconceived ways of thinking to overcome blockages and foster breakthroughs. Issues are viewed from different angles to realize connections and to create integrations of awareness. Structured as an active and evocative instrument, the *Intensive Journal®* workbook helps you generate energy and momentum to move forward through cumulative ongoing entries.

Whole-Life Process: Greater Perspective and Safety

Progoff's "whole-life" approach provides important benefits of perspective and safety. Greater awareness about a wide range of life experiences creates a foundation for making decisions. Issues can be viewed in a larger context and become more manageable. Using the *Progoff™* technique allows for issues and awareness to develop over time, thereby avoiding premature judgments.

"The creative person is one who is able to draw upon the images within himself and then to embody them in outer works, moving inward again and again for the inspiration of new source material, and outward again and again to learn from his artwork what it wants to become while he is working on it."
